

# Technical Data Sheet

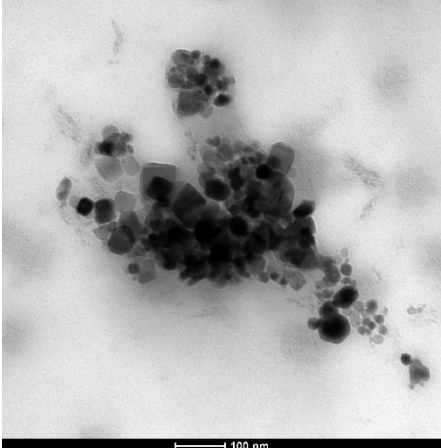

Product Name	<b>Cobalt(II,III) oxide, Co<sub>3</sub>O<sub>4</sub> nanoparticles dispersion</b>
Synonym	
CAS Number	1308-06-1
Formula	Co <sub>3</sub> O <sub>4</sub>
Formula Weight	240.80
Appearance (Form, Color)	Powder, gray black
	Colloidal, gray black depending on concentration
Concentration	1% to 20% w/w in water or selected organic solvents
	For concentration > 20% w/w please contact <a href="#">Technical Support</a>
Particle size	14 ± 7.8 nm
Coating	For specific requirements please contact <a href="#">Technical Support</a>
Pricing	Visit our Online Store or <a href="#">Request a quotation</a>
Bulk Pricing	For orders > 10kg please contact <a href="mailto:sales@particularmaterials.com">sales@particularmaterials.com</a>

	Drums	Pails	Cans	Bottles	Vials
Available Packaging	✓	✓	✓	✓	✓

PARTICULAR  
MATERIALS

## **QUALITY CONTROL**

When stored as recommended, most nanoparticles are stable for 6 months to > 1 year. Be sure to visually inspect your materials before each use. If there are any visible particulates floating in the solution, if the color of the solution has changed, or if the color intensity has decreased, the nanoparticles may have aggregated. These materials should be analyzed via UV-Visible spectroscopy, DLS, or TEM for quality verification.

## **HANDLING NANOPARTICLE COLLOIDS**

Shake prior to use. During storage the nanoparticles may settle to the bottom. Resuspend the settled nanoparticles by vigorously shaking the bottle until the solution is homogenous, typically require 30 seconds of mixing.

## **HANDLING DRY NANOPOWDERS**

Storage away from excess moisture and humidity is recommended until the materials are ready for use or redispersion.

For a suggestion of solvents and methods to redisperse dry powders, contact our **Technical Support** [we.are@particularmaterials.com](mailto:we.are@particularmaterials.com).

## **QUESTIONS & SUPPORT**

If you have any questions, please don't hesitate to contact us by email at [we.are@particularmaterials.com](mailto:we.are@particularmaterials.com) or by phone at +39 049 490 6797 or directly contact your sales representative.
